Coming from one to whom the question will probably be submitted, the declaration is certainly important. The admission of Cuba as a Stave State must greatly affect the interests, the rights, and the honor of our people. You will permit me to suggest that this doctrine of 'property in human fiesh' has ever been repudiated by the people of Ohio, even while we were a Territory. In both our first and present Constitutions it is most unequivocally rejected. In our legislation, by the decision of all our Courts, than with perfect unanimity been discarded. When it was first presented to the Supreme Court of the United States for decision. an emiment Judge of Ohio (Judge McLean) boldly lenied its existence under the Federal Constitution; and exposed its absurdity with such powers of logic and of eloquence, that no also decision gives and of eloquence, that no account of its fine property and the continuation of the fine gives and of eloquence, and there is no Constitutional power in any department of government to effect it. from twenty-three different species of mountain
herbo of his native land, which acts directly upon
the cause of disease in the blood, and by restoring
the corrupted fountain of life, to a condition of
health and purity, expels disease from the system
wherever it may be located, or whatever may be its
character. Indigestion, nervous complaints, epileptic and other fits, congent, consumption in its
early stages, sore throat, bronchitis, fever and ague,

De. C. W. Bonack: I have received so much benefit from your Scandinavian Blood Parther and Blood Pitla, that I have thought it my duty, and it is no less my inclination, to give you a plain statement of my case. I was for yeary afficted dith that bane of all comfont, and officiency in business, dyspepsis. To recapitulate all the so called resecties which I have used to rid myself of this disease, would indeed make a melancholy catalogue. I also consulted with the best physicians I could hear of. I was induced to try your remedies through the persuasions of a friend, and efter using them a lew days was greatly benefited, and in short time, less than a month, I was unitively and permanently cured. I was also afflicted with the most violent nervous headache, which I suppose was pendaced by my disordered atomach, for when my dyspepsis left me. my headache left with it. I now feet bester in every respect than I have for ten years.

Very truly yours, JOHN S. DEMUTH.

CINCINART, Friday, Sept. 4, 1857.

Dr. Rosack-Dear Sir: Having been afflicted with neuralgia or rheumatiam for the past year and a half, and having seen your medicine, called the Scandinavian Blood Purifier, highly recommended by gestlemens with whom I am acquainted, I was induced to try it, but not before I had used many other med icines. After using two bottles, I f it its effect very sensithly, and upon using two more, I found myself perfectly cured. You will ellow me, therefore, to congratulate you upon making a discovery in medicine which is proving itself to be a worker of such wonders in the diseases of the human family.

in our power to put a inedirine in your reach, namely, Morse's Incian Roat Fills, manufactured from plants and roots which row around the mountainous cliffs in Nature's garden. for the health and recovery of diseased man. Ome of the roots from which these Fills are made is a Sudoride, which opens the pores of the akin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the inner, and thus, in a soothing manner, performs its duty by throwing off phiegm, and other humors from the longely copious splitting. The third is a Disretic, which gives ease and double strength to the kidneys; thus encouraged they draw large amounts or impurities from the blood, which it then thrown out bountainly by the urinary or water passage, and which could dot have been discharged in any other way. The fourth is a Catherlio, and accompanies the other properties of the Fills while engaged in purifying the blood; the caarser particles of impurity which cannot pass by the other outlets, are ilsus taken up and conveyed off in great quantifies by the fowels.

From the above, it is shown that Dr. Morse's Indian Root Fills not only enter the stomach, but he come united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurify, and the life of the body, hich is the blood, becomes perfectly healthy; consequently, all sickness and pails is driven iron the system, for they cannot remain when the hody hecomes so pute and clear.

The reason why so many are distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afficial parts, and which will open the natural passages for the disease to be cast out; bence, a large quantity of food and other matter is lodged, and the stomach and in testines are literally overflowing with the corrupted mass; thus undergoing disagreeable ferementations, constantly matter thought.
